

¡Transportation Nation: Invent Something With Wheels!
¡Nación de Transportación: Inveta Algo con Ruedas!

As busy parents, teachers and niños, we are all constantly on the move! Wheels help us to get from point A to point B every single day. From strollers to bicycles to cars, wheels are integral in transporting us! We observe how wheels roll, stop and go everyday and will use our observations to create our own inventions that incorporate wheels. By the end of April, we will have created our own wheeled inventions. Who knows? Perhaps we will race a few of them!

During our Transportation Nation Unit, students will:

- Demonstrate travelling skills
- Demonstrate fine motor strength and coordination
- Listen to and understands increasingly complex language
- Explore and investigate ways to make something happen
- Plan and pursue a variety of appropriately challenging tasks
- Use number concept and operations
- Explore and describe spatial relationships and shapes
- Compare and measure
- Demonstrate knowledge of patterns
- Use scientific inquiry skills
- Use tools and other technology to perform tasks

Vocabulario:

Ruedas- wheels
Autobús- bus
Avión- plane
Coche- car
Tren- train
Metro- subway
