

Winter Is Coming! How can we help our community stay protected during inclement weather? ¿Cómo podemos ayudar a la comunidad estar protegidas durante las inclemencias del clima?

As winter approaches and temperatures begin to drop, Mi Casita students will begin to observe the changes in the season. We will learn how people and animals stay warm and what we need in order to be protected during the winter months.

Students will:

- Use senses to explore and learn from the environment.
- Show interest and interact with others about their work or actions.
- Ask questions to understand something.
- Identify patterns in the environment.
- Begin to use new vocabulary when asking questions or describing situations.
- Create a picture about an experience
- Use a variety of resources to find new information.
- Make a prediction about the result of an experiment or outcome.
- Describe changes that occur in animals during the seasons.
- Observe differences in water. (ice cube or snow melting and freezing)

Vocabulario/Vocabulary
